Smarter.
Not Harder.

The Simple Software Solution for Representative Payees.

REPRESENTATIVE
PAYEE MANAGER

The Smart, Simple Software for Representative Payees.

Being a Representative Payee agency doesn't have to be complicated or difficult. Not when you could be using RPM Representative Payee Manager software to make every task simpler and faster.

Designed With You In Mind.

Created just for the unique needs of representative payees like you, RPM dramatically reduces time and effort you spend organizing paperwork and doing accounting, making your agency more efficient and allowing you to serve your clients even better. Regular updates based on feedback from our users make RPM even easier and more productive, and our service and support are second to none.

Every Task, Simplified.

RPM is designed to automate and streamline all of the items on your to-do list using straightforward, strict, transparent accounting methods. Easily configure mass and individual checking accounts. Schedule and process recurring payments and deposits for clients. Print checks one at a time or in groups. Generate batch checks to vendors. Reconcile statements and analyze vendor transactions. Automate Social Security deposits and reporting requirements. All with robust security that lets you control access to appropriate client information throughout your organization while providing instant access to current balances, transactions and reports from any computer on your network.

“RPM has made payee reporting to the Social Security Administration as simple as pointing, clicking, and typing in a date range. Wow! Did we save time! It's also one of the most user-friendly software packages I have worked with. In fact, after reading the manual, which is easily understood, I taught myself to use it and trained staff. I contacted technical support several times while learning and each time I received prompt, courteous and respectful service. Even today when I need to contact RPM support, which is not often, they reply in the same day. The updates to RPM are improvements that continue to make the software more efficient and friendly to use. We have been using RPM for almost 4 years now and continue to be very pleased with what it has to offer.”

Don't Dread Audits.
Own Them.

The High Performance Software Solution for Representative Payees.

REPRESENTATIVE
PAYEE MANAGER

The Worry-Free, Trouble-Free, Data Rich Software for Representative Payees.

If the notice arrived today of a Social Security audit, would you be nervous? Would you dread the hours your people would have to spend pulling reports together? Not if you were using RPM Representative Payee Manager software.

Deep Data. Robust Reporting.

RPM is designed with the specific needs of representative payees like you in mind. Using strict, transparent accounting methods, it automates Social Security deposits and reporting requirements. That means you'll have easy, instant access to all of the reports you need — even for audit purposes. And because it allows you to automate deposits and payments, it offers you the level of accuracy you need to sail through any audit.

The Features You Need.

Get instant access to current balances, transactions and reports from any computer on your network. Easily configure mass and individual checking accounts. Schedule recurring payments and deposits for clients. Print checks one at a time or in groups. Generate batch checks to vendors. Analyze vendor transactions. All with built-in security that gives you controlled access to appropriate client information throughout your organization.

We currently manage funds for 150 clients. By the luck of the draw, we have been selected the past three years for Social Security audits. We have passed with flying colors and the auditors are very impressed with our recordkeeping.

Don't You Have
Something Better to Do?

The Time-Saving Software for Representative Payees.

REPRESENTATIVE
PAYEE MANAGER

The Time-Saving, Money-Saving, Game Changing Software for Representative Payees.

Is your Representative Payee agency using outdated software? Trying to make off-the-shelf software work? Stop wasting valuable time and money — and start using RPM Representative Payee Manager software.

Designed With You In Mind.

RPM is designed just for representative payees like you. It makes your agency more efficient and lets you serve your clients even better. You'll spend less time organizing paperwork and doing accounting — and get instant access to current balances, transactions and reports from any computer on your network.

User-Friendly, Redefined.

RPM uses simple, strict and transparent accounting methods — and automates Social Security deposits and reporting requirements. Easily configure mass and individual checking accounts. Schedule recurring payments and deposits for clients. Print checks one at a time or in groups. Generate batch checks to vendors. Analyze vendor transactions. All with built-in security that gives you controlled access to appropriate client information throughout your organization.

“ We used to have 600 individual checking accounts for our customers. But thanks to RPM, now we have one consolidated account. Before RPM, we had six people come in for an hour or two and check our bank accounts online for deposits on the first and third of the month. Now, with RPM's bank import feature, one person simply imports all the deposits right into RPM and we don't have to worry about any inaccuracies. Our customer's wait time has really been reduce...we are now also able to electronically transmit funds to landlords and other vendors very easily. No more lost checks in the mail! We love RPM's thorough software documentation and new updates that come out twice a year. ”

Tim Weidner

CFO with Freestore Foodbank

The Smart, Stress-Free
Way to Grow.

The Time-Saving Software for Representative Payees.

REPRESENTATIVE
PAYEE MANAGER

The Smart, Stress-Free Software for Growing Representative Payees.

As your Representative Payee agency grows, you're likely to find that the software solutions that got you where you are today won't get you where you want to be tomorrow. That's when you need software designed just for you — RPM Representative Payee Manager software.

Designed for Growth.

RPM is designed to streamline your processes and allow you to scale your operations more easily. By building new efficiencies into your agency, you'll be able to handle more clients in less time with tighter controls, greater access and more accurate reporting. And because our packages are based on your size, you can choose the option that makes sense for where you are today, and grow into the next level as you add clients!

Everything At Your Fingertips.

Applying strict and transparent accounting methods, RPM allows you to handle a variety of tasks for a growing number of clients in a more streamlined and efficient manner. Automate Social Security deposits and reporting requirements. Easily configure mass and individual checking accounts. Schedule and process recurring payments and deposits for clients. Print checks one at a time or in groups. Generate batch checks to vendors. Analyze vendor transactions. All with built-in security that gives you controlled access to appropriate client information throughout your organization.

“We are Texas' largest fee for services payee organization, currently serving nearly 400 clients in Texas, New York, Arizona, New Mexico, Georgia and Iowa. At the time we discovered RPM, we had around 200 clients, and would spend a full day printing checks. This amazing software has allowed us to effortlessly increase our client base by nearly 200 additional accounts. This is where RPM truly shines. We are able to track client expenses, history and a wide range of personal information in one software application...and print over 4,000 checks in one pass within 20 - 30 minutes. Whether you serve 10 or 1,000, this is absolutely the software you need!”
