

Since 1953, Uhl Truck Sales has served Indiana and Kentucky from its 3 full-service dealerships. We're proud of our decades of experience in delivering quality products and exceptional service to the transportation industry, and our commitment to building on this tradition has only strengthened.

Driven by our desire to remain competitive in this changing marketplace, we merged with two other Midwest dealerships: O'Halloran International out of Iowa and Cerni Motors out of Ohio, forming Trivista Companies, Inc.

Tradition. Commitment. Relationships. Those are the key elements of Trivista's foundation, built on decades of hard work, sweat equity and handshakes between dealership and customer by our founders...true trailblazers who forged our path so many years ago. We work hard every day to build a future that will honor their sacrifice and hard work.

And, while we're each steeped in history and tradition, we're also innovative and forward-thinking. We've become thought leaders in the world of trucking. And we recognize that we're stronger together, offering over 160 years of combined dedication and grit.

That combination of strength and experience allows us to provide a broader array of services, expanded capabilities and a deeper pool of resources to deliver even greater customer service and individual attention. It's why we were recently honored with the Navistar Presidential Award.

We look forward to continuing the tradition of supporting the International brand and YOU!
